

# WINTER WHISPERER 2022!

## WHATS NEW IN 2022...

### THOR is coming to FLOID

Our newest and craziest FLOID element is here...meet THOR. Massive jump station! Thor features three jump platforms, two slides, two climbing ladders, and two advanced climbing walls. Beat your friends to the top!

### Late Night Lights

Brand New LED's will light up Basketball, Hockey and Tennis this summer so we can have incredible late-night sports games. The Landsports and Tennis marathons are going to be amazing!

### NEW PRE-WEE CABINS

Pre-Wees are going to be staying in brand new cabins this summer! Jay, Larry and the maintenance staff have worked incredibly hard to build these cabins! We can't wait to see you for Pre-Wees this summer.

## We're bringing back...

# THE PINE LOUNGE

Ever since we tore down the Pine Lounge there has been a constant push to "rebuild."

The chant - "Bring Back the Pine Lounge" is a familiar sound throughout CWP. Well, we listened.... Summer 2022 will be the first year of the **NEW Pine Lounge**.

Designed by program director, Tyler Gmyrek, we have created a space where campers can go to wind down, relax, read, write or just spend some quiet time. We recognize that overnight camp, while amazing, can be overwhelming at times. There is very little opportunity to be on your own and tune out a bit, away from the camp craziness.

Campers that need a quiet space will be able to hang out in the Pine Lounge on comfy couches and bean bags, and decompress before rejoining the fun. We will also create a library of books that campers can read if they want.

The new Pine Lounge will be a low key space that will be designed to help campers relax and refocus if and when they need a short break from the stimulation of camp.

We all need different things to enhance our emotional well-being, at CWP, we are committed to creating an inclusive, holistic and supportive environment for everyone.

# "No place like CWP"

## By Shannon Gane - Head of Waterfront

We have all faced challenges in the last two years, but being away from camp has been the hardest. There is no place like camp, it's our home, a place we can be whoever we want and a place where we are happiest. Being away from camp has made me realize how much the docks and White Pine mean to me. I know for sure 2022 is going to be a summer to remember. If you were to ask me what I missed the most, my answer would be the silliness of camp, but here are some of my favorite parts.

### The Docks

The docks are my happy place, whether it is a kiwi ski, the early morning shredders or just a dock party. It is something that I've missed more than anything. I cannot wait to see the smile on camper's face when they ski for the first time - all of it brings me so much joy. The 2022 docks are going to be a time, and I hope everyone who comes down leaves with a memory that will last forever!

### Song and Dance

I can't wait till we are swaying arm in arm on the beach, bursting out of our seats at lunch or pushing the dining hall floor to its limits dancing like nobody is watching! I can't wait to just spend the summer in a place surrounded by people that want to have a good time. I know camp went back for most last summer, but returning this year is going to be something special. I am just waiting for those country roads to take me home!

### Pio Party

Rain and skiing don't really go hand in hand. But when we can't ski, it's all good, because there ain't no party like a Ski Pio Party! The only time it's acceptable to not be on the water, is when the water is on Pio! An epic game of mud soccer is high on my list of things that I miss! Whilst I'm hoping for a summer of sunshine, I am more than okay with the occasional rain and an epic Pio Party!

### The All Day

Very rarely do you find yourself in an event filled with so much passion from 7 year olds to 70 (AK, I just guessed your age). It is a day that captures the magic of White Pine. From the beautiful seconds after your teams rope snaps, the infamous belly flop or knowing that everyone on your team gave it their all, the All Day is something special.

# The “little” reasons why CWP is so special

## Kyra and Julia

Hi, we're Julia and Kyra and this will be our 13<sup>th</sup> summer at the best camp in the world!! White Pine is so special because of all the amazing events that happen throughout the summer. We have loved every summer that we have spent at camp, and here are our top 10 reasons that Camp White Pine is so unique.

In no specific order:

### 1. Brother Sister Lunch

Brother sister lunch happens every Saturday and gives you a chance to eat with your family at lunch!! It's a great time to hang out with your family or any non-cabin members!!

### 2. Hobby Hubs

Hobby hubs is a Saturday morning activity where anyone in camp can run their own activity! Examples include math with Jesse, Tours of CWP, Juggling sessions, and Music appreciation!!!

### 3. Saturday Mornings

Saturday mornings are such a fun part of the week. There is a sleep in and buffet breakfast! First morning is spent with the whole camp together, either in a sing song, hobby hubs, or a camp wide activity!

### 4. All Day Competitive Spirit

The All Day is most White Piners favourite day of the year! Unique to White Pine, the All Day is so spirited and everyone puts their heart into their teams!! There is always a creative theme and it is the best day!!

### 5. Big Buddy Little Buddy

Big Buddy Little Buddy day is when younger and older campers are paired up and spend the day together. You make a new friend in a different section and you get to do fun activities together (tubing!!!!)

### 6. Canoe Trips

By having a mandatory canoe trip within the first month of camp, cabins are given the best opportunity to bond with each other. The best memories are made on canoe trip!!

### 7. Travelling as a Cabin

At White Pine, we travel to three periods each day as a cabin group, with two free periods. This allows for the cabin dynamic to be so strong and ensures that cabinmates form close bonds with all of their peers.

### 8. Outdoor Meals

Three meals a week are an outdoor BBQ, with a range of hot dogs, chicken, salami, and hamburgers. There are performances from School of Rock campers and you can sit with friends or siblings in other cabins. Not to mention ... an extended rest hour!!!

### 9. Sing Songs

Every Sunday the entire cabin gathers on the beach during sunset to sing the best White Pine classics! We love to all be together and listen to Dana lead us on the mic.

### 10. Music Lunches and Dinners

There is nothing better than music meals, when the entire camp gathers to sing and dance together after we're done eating, whether that be on the benches, on the floor, or in the middle of the dance floor!!!

# DJ Grunny's Top Hits of Summer 2021!

After missing a full summer of dancing and singing in 2020, we had a lot to make up for last summer. With countless music lunches, socials and section wide dance parties, there was never a shortage of belting out the top songs of the summer. DJ Grunny was put to the test last summer when he had to DJ the Midnight Special, the Socials and so much more. Here are his TOP SONGS OF 2021...

## FRIDAY (ft. Mufasa & Hypeman)

RITON, NIGHTCRAWLERS

## FOUR LEAF CLOVER

DISTANT MATTER

## I WANT IT THAT WAY

BACKSTREET BOYS

## MACARENA
